

Felixstowe HYDROCYCLE

Tender Opportunity for Construction of a Water Transfer Line and Pumping Station in East Suffolk

Description

Felixstowe Hydrocycle Ltd is an innovative, farmer led, water supply and management company working in partnership with the Environment Agency, the Local Authority and Drainage Board to bring sustainably sourced fresh water supplies onto the Felixstowe Peninsula.

Felixstowe Hydrocycle Ltd has been formed by 5 local farmers to install a 12km pipeline to allow the recycling of drainage water back to farm reservoirs.

The business has been successful in securing a 2Seas ERDF grant to help finance the project. This grant is called "FRESH 4 C'S" and in this Felixstowe Hydrocycle Ltd is partnered by Belgium and Dutch companies, as well as Suffolk County Council, Environmental Agency and the UEA.

Further background is available on www.felixstowehydrocycle.com and www.fresh4cs.eu

This tender is for the pipeline and pumping station element of the project. Further tenders will follow for the telemetry, control systems and managed aquifer recharge elements of the project. If you have an interest please make contact with John Patrick.
